

GLS SUV

X167

Model Year 2020

Preliminary – Subject to Change

Mercedes-Benz

The best or nothing.

Important note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

and Executive Rear Seat Package Plus (DB6PKG)*

or

6 Seat Configuration (224)

2 + 2 + 2 Seats

Individual Seats with Armrests in 2nd row

E-ACTIVE BODY CONTROL (ABC®) (DC7PKG)

E-ACTIVE BODY CONTROL (ABC®) (DC7PKG)

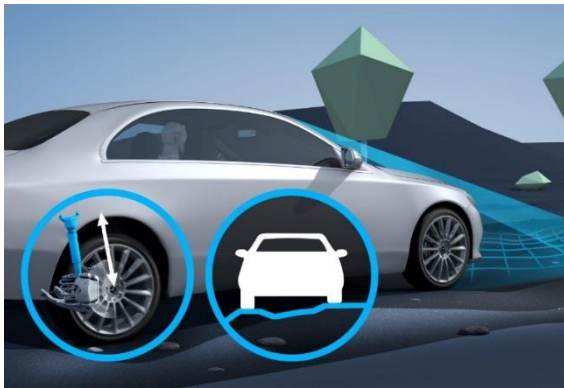

Option Price: \$6,500

Optional on all GLS models

Requires tire diameter 790 (wheel size 20" or larger)

E-ACTIVE BODY CONTROL is an all-new suspension system powered in part by the 48V battery and developed by Mercedes-Benz. By utilizing a Road Surface Scan and curve inclination function, an extraordinary level of comfort is made possible, and supports the claim of Mercedes-Benz to build the world's most intelligent SUV suspension.

- Only system on the market to control spring and damping forces individually at each wheel
- Hydropneumatics generate dynamic forces that overlay the air suspension forces and actively support and dampen the vehicle body during linear and lateral acceleration or when driving on uneven roads

Mercedes-Benz User Experience (MBUX)

MBUX - the newest head unit generation from Mercedes-Benz

Standard on all GLS models

- Offered with two 12.3" digital displays as standard equipment
- MBUX was designed for a touch interface with intuitive operation
- There are four ways of interacting with the system:
 - An all-new Touchpad, Touch Control Buttons on the steering wheel, a touchscreen center display, and an all-new generation of Voice Control
- Multiple users can set up Profiles which save their settings for future use
 - Including: seat settings, music preferences and radio settings, phone settings, themes/moods, Bluetooth connections, etc.
- Over time, the system learns more about it's owners and creates Suggestions based on past behavior of the user
- Whole groups of settings can be saved together in the form of a Theme/Mood
 - Including: ambient lighting, climate control, music preferences, and setup of the Digital Instrument Cluster and head unit display, etc.
- Using over-the-air updates, MBUX can continuously be improved over time
- The system is very quick and responsive due to it's impressive graphics processing and computing power

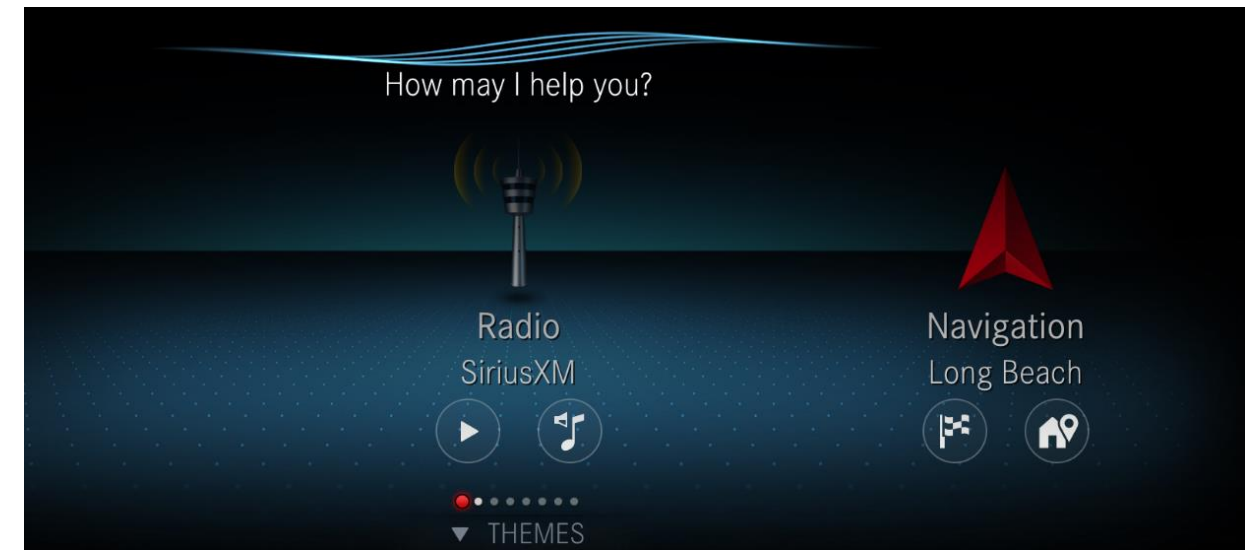

Voice Control

The most advanced Voice Control in any Mercedes-Benz vehicle

Standard on all GLS models

- Voice Control with MBUX is greatly enhanced over other systems by using both an onboard and offboard system for voice recognition
 - This ensures quick and appropriate responses
- The system also uses Natural Language Understanding so there's no need to remember the order of words for a specific command, just talk to the voice assistant as you would speak to another person
 - There are many ways of saying the same thing: *"Take me to Starbucks"*, or *"Find a Starbucks nearby"*, or *"Is there a Starbucks close?"*, or even *"I need a coffee"*
- Indirect commands can also be given like *"Will I need an umbrella today?"* and the Voice Control system understands that the user is really asking whether it will rain today
- In-vehicle components can also be controlled via Voice Control, like seat heating, climate control, ambient lighting, massage programs, and even the sunshade for the Panorama roof
- Voice Control is also capable of learning from its users and adjusting its understanding to their specific way of speaking
- Keyword Activation ensures you can quickly interact with Voice Control without having to press the button on the steering wheel
 - The system wakes up with a simple *"Hey Mercedes"* or *"Hi Mercedes"*

MBUX Interior Assistant (Gesture Control)

MBUX Interior Assistant (77B)

Option Price: \$300

Not w/ Burmester® High-End 3D Surround Sound System (811)

Enjoy contactless ease of operation: this innovative system detects and interprets your hand and arm movements. As such you can activate selected functions in a matter of seconds. As part of this the system is able to differentiate between driver and front passenger – so that you reach precisely the menus you wish to use.

- 3D camera in the overhead control panel, proximity sensors near the media display and touchpad
- The system detects and interprets hand movements and as part of this differentiates between the driver and front passenger
- Specifically highlights certain elements in the media display or enlarges them (media/radio, seat adjustment, navigation or Active Parking Assist)
- Activate reading lamp – by moving hand up and down beneath rear-view mirror
- Activate search light – stretch hand out towards the unoccupied front passenger seat
- Call up the personal favorites menu – defined gestures, form a "V" using index and middle fingers. This feature is customizable for both driver and passenger

Steering Wheel (L3B)

3-spoke Nappa Leather Multifunction Steering Wheel (L3B)

Standard on all GLS models

The newly redesigned 3-spoke multifunction steering wheel in nappa leather combines a sporty design, compact dimensions and fine materials.

- Steering wheel shift paddles integrated into the back of the steering wheel cross spokes enable manual gear shifting and support a sporty driving style
- Steering wheel shift paddles in the steering wheel color
- Optional Active Distance Assist DISTRONIC® or standard cruise control is controlled via steering wheel-mounted controls
- Touch Control buttons for direct control of the instrument cluster and to control the functions of the multimedia system

Touchpad controller (448)

Touchpad Controller (448)

Standard on all GLS models

The functions of MBUX can be controlled intuitively via the innovative touchpad, using single or multi-finger gestures (multi-touch):

- Touchpad approx. 3.35 x 3.54 inches in size
- Additional full-fledged input option supplementing the central controller, Touch Control Buttons on the steering wheel and voice control
- Recognizes single or multi-finger gestures (multi-touch), swiping movements and zoom gestures achieved by spreading the fingers or pinching them together
- Innovative handwriting recognition feature: Users are able to input letters, special characters and numbers in their normal handwriting, in any language available in the headunit
- 3 buttons located on the touchpad allow fast and direct operation of important functions
- Clear haptic feedback when using the touchpad or keys

Head-Up Display (463)

Head-Up Display (463)

Option Price: \$990

Optional on all GLS models

The Head-Up Display at a glance:

- Key driver information at a glance (e.g. speed, speed limits, navigation prompts, warnings or settings for the driving assistance systems) without the driver having to take their eyes off the road
- Projection of a virtual image measuring approx. 9.45" x 3.15" into the driver's field of vision
- Presentation of information in high-resolution and in color, making it clearly legible even on sunny days and at night
- Height position of the image, brightness and displayed content can be changed individually via a menu in the instrument cluster and can be stored conveniently via the optional memory function for the driver's seat

Ambient lighting with 64 colors

Ambient lighting with 64 colors (876)

Standard on all GLS models

Showcase the interior according to your personal preferences or current mood. With a total of 64 colors, the ambient lighting gives you almost unlimited scope for lighting schemes, and has the right color available for any situation. Additional light elements in white help to ensure good orientation.

- All colors can be individually selected
- Brightness of the illumination zones can be freely selected between 0 and 100%
- Nine color schemes with different color combinations are pre-programmed
- Dynamic mode: atmospheric color changes thanks to slow, seamless transition between different colors
- Climate effect: feedback in color when changing the temperature setting
- Welcome effect: special light display when getting into the vehicle
- Incorporation of ambient lighting into the programs of the ENERGIZING comfort control, in conjunction with ENERGIZING package Plus
- Illuminated door sill panels with “Mercedes-Benz” lettering

ENERGIZING Package Plus (DB8PKG)

ENERGIZING Package Plus (DB8PKG)

Option Price: \$2,100

Requires Warmth and Comfort Package (DB0PKG)

The ENERGIZING package Plus is a new feature – it offers ultimate comfort for all the senses. To this end, a maximum of premium features are combined with innovative intelligence.

The exciting result: your Mercedes can vitalize and pamper you in specific ways. For prolonged alertness at the wheel and a very pleasant drive.

Programs

- The "Refresh" program brings a breath of fresh air on board – an intense airflow and activation of the seat ventilation create a revitalizing atmosphere
- "Vitality" gives you new energy – e.g. by including lively music
- Cozy relaxation is the purpose of "Warmth", which activates the seat heating
- If you opt for "Joy", the focus is on an invigorating massage with wave-like lumbar movements
- Your seat also pleases you in the "Comfort" program – in this program you can enjoy both seat heating and a beneficial hot-stone massage with a pulsating lumbar effect
- "Training", on the other hand, is active rather than passive: you can put intermediate breaks to good use with exercise

Additional functionality with Garmin® wearables (Smartwatch/Fitness Trackers)

Availability of Heated & Ventilated Front Seats (401) with MB-TeX

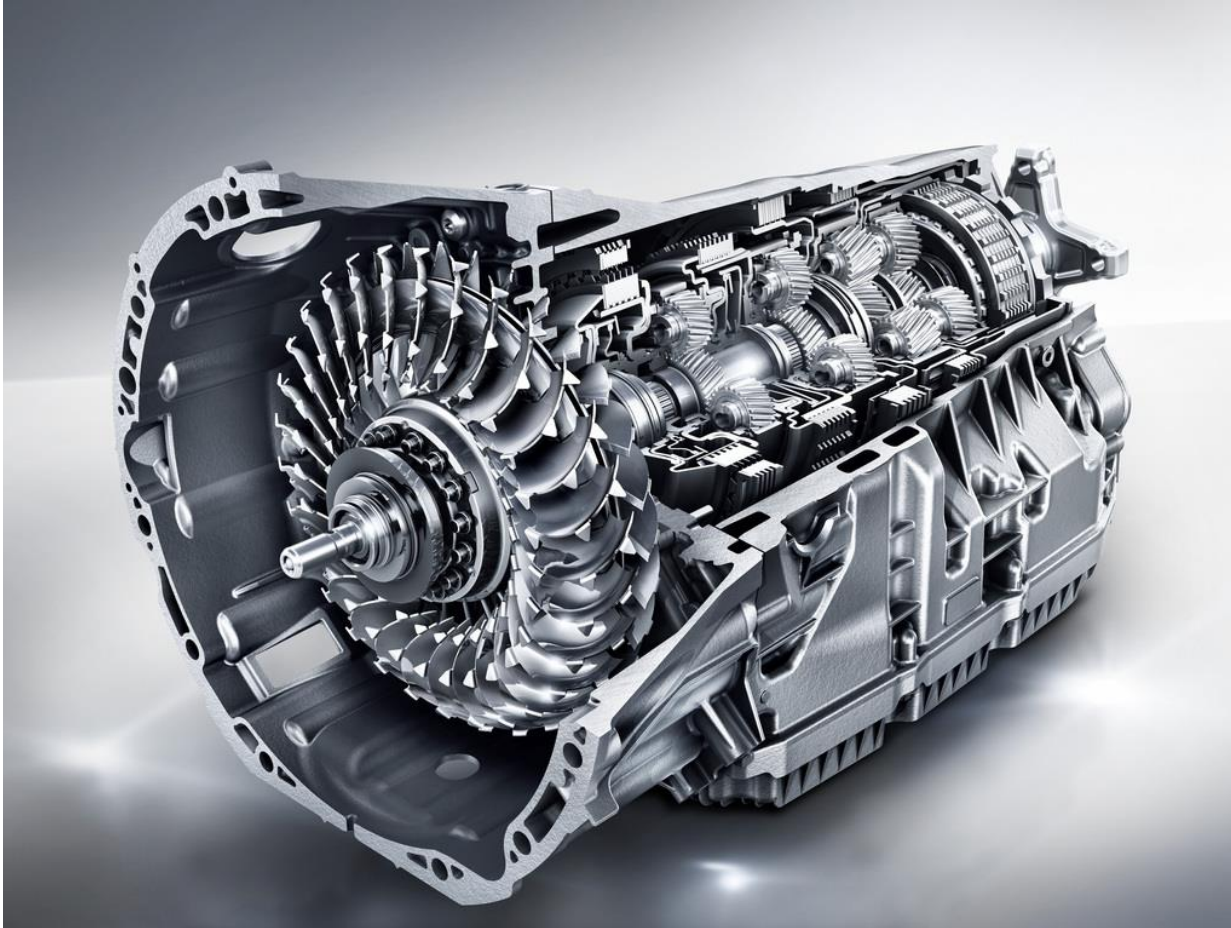

Heated & Ventilated Front Seats (401)

Option Price: \$450

Will be available with MB-TeX for the first time

The climatized seats for driver and front passenger comprise seat heating and seat ventilation – for an ideal seat climate all year round. On hot days they provide you with a pleasantly refreshing temperature thanks to cooling ventilation. On cold days, meanwhile, the seat cushions and backrests emit a pleasant warmth.

9G-TRONIC Automatic Transmission (421)

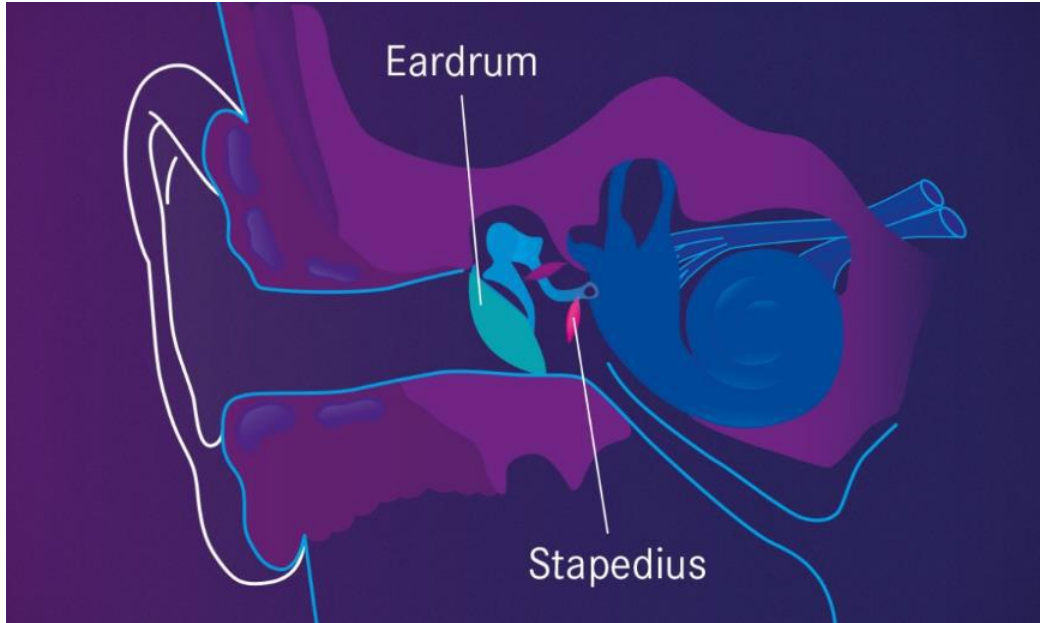

9G-TRONIC 9-Speed Automatic Transmission (421)

Standard on all GLS models

9G-TRONIC – faster, smoother, more efficient

Featuring nine forward gears, this automatic transmission takes efficiency, comfort and dynamism to a completely new level. It is the new generation 9-speed automatic transmission with hydrodynamic torque converter in the premium segment. The larger ratio range allows a reduction in engine speed. Performance remains excellent while ride comfort is enhanced and noise levels are reduced. The reduced intervals between the gears lead to faster gear changes and enhanced spontaneity and agility. At the same time, the 9G-TRONIC transmission impresses with smooth, barely perceptible gear shifting like that of a continuously variable transmission. As the 9G-TRONIC transmission is able to skip individual gears, multiple downshifts are possible for fast and powerful sprints.

PRE-SAFE Sound

PRE-SAFE® Sound

Standard on all GLS models

Part of PRE-SAFE, PRE-SAFE Sound is an acoustic occupant preconditioning system which can reduce the effects of the noise from an accident on the occupants hearing.

- When the PRE-SAFE system recognizes a certain dangerous situation, the onboard sound system plays a brief rushing sound, also known as 'Pink Noise', to precondition the hearing
- The natural reflex mechanism of the stapedius muscle enables the inner ear to rapidly prepare for the accident-induced high pressure sound
- Up to 40% reduction of noise exposure impact

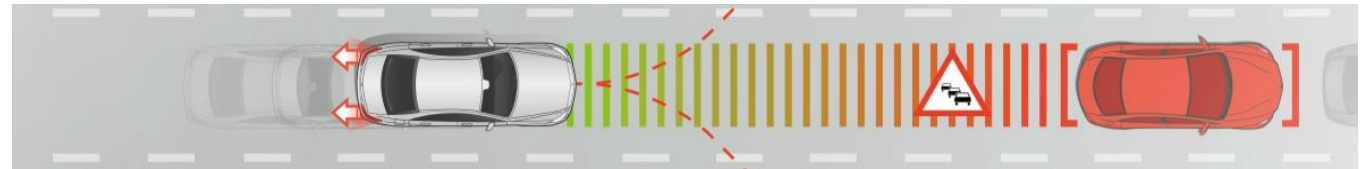

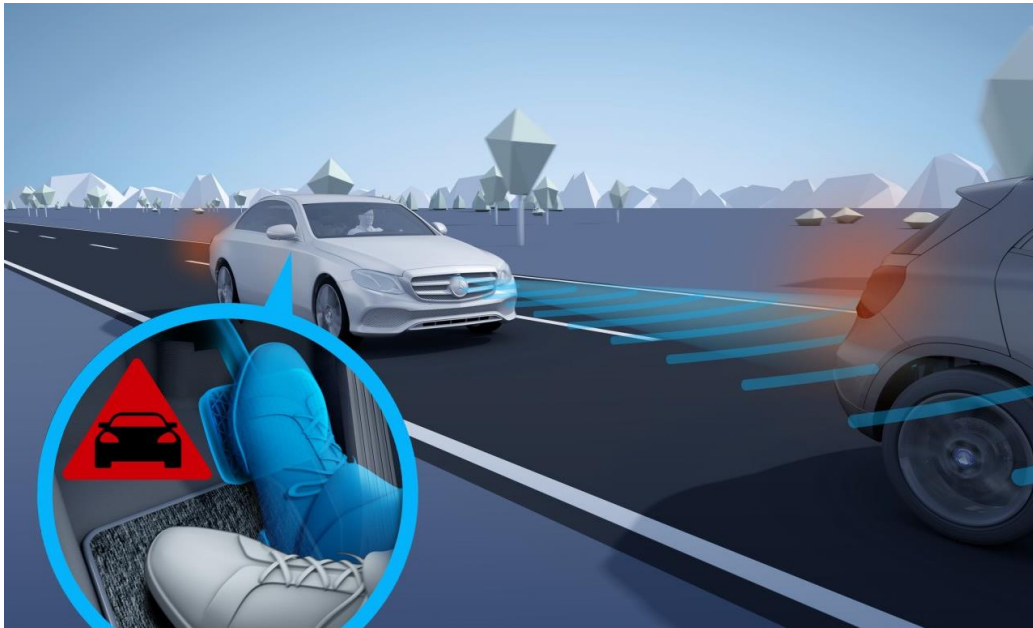

Active Brake Assist

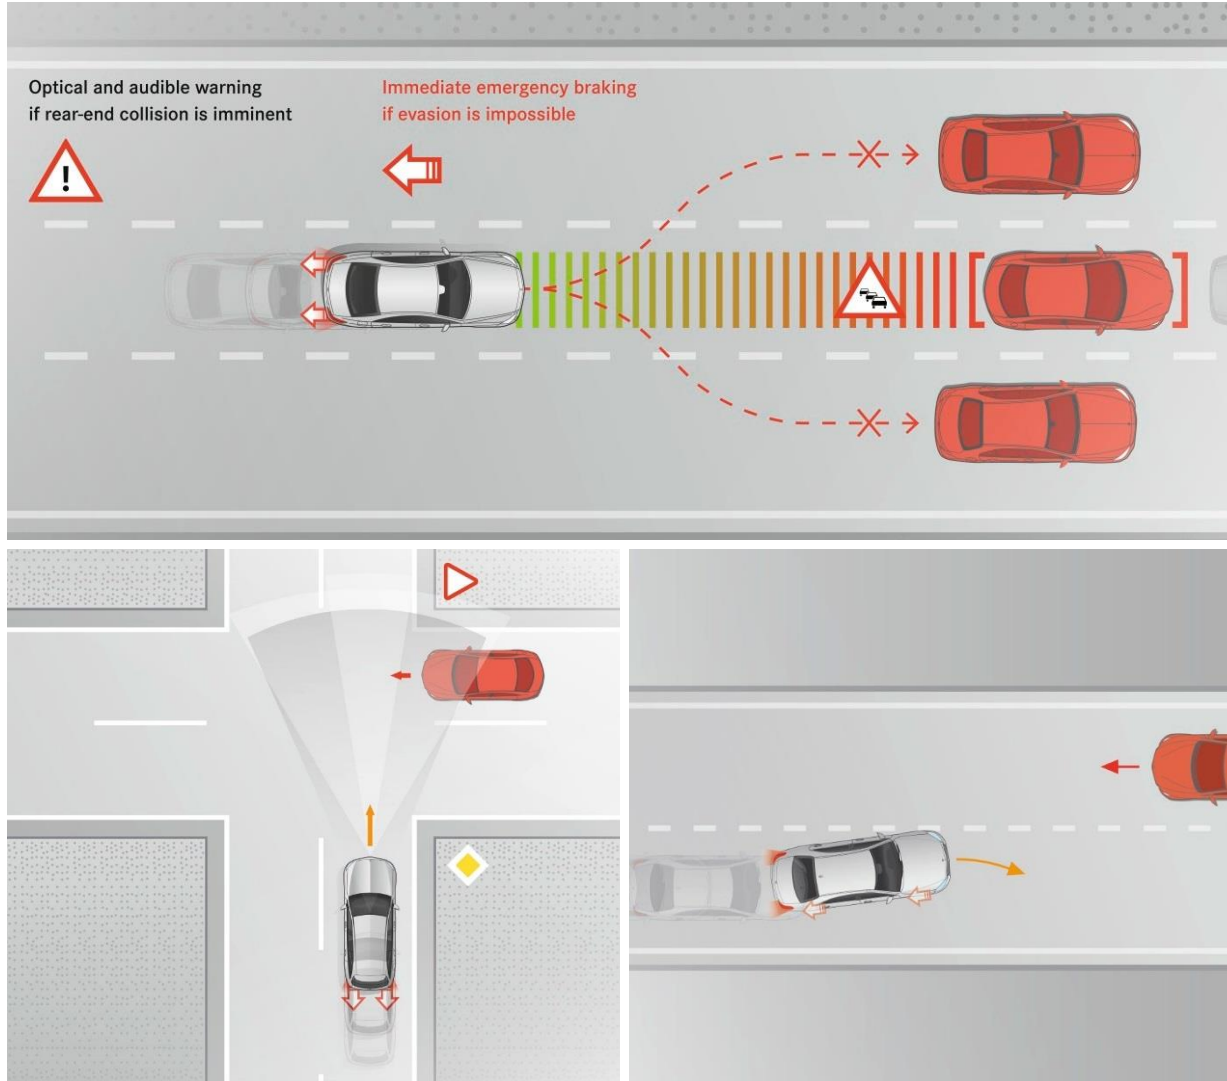

Active Brake Assist (258)

Standard on all GLS models

- Radar-based driving assistance system that can help prevent accidents with vehicles ahead and with crossing pedestrians or mitigate the consequences of accidents
- Combination of proximity warning, collision warning, on-demand braking assistance and autonomous braking function
- Additional audible warning if the distance diminishes rapidly
- If the driver initiates emergency braking – if necessary – increase in braking pressure by the on-demand braking assistance
- Initiation of autonomous braking if the driver fails to react
- Visual and audible warning plus almost simultaneous emergency braking if an impending collision with a crossing pedestrian is detected

Driver Assistance Package

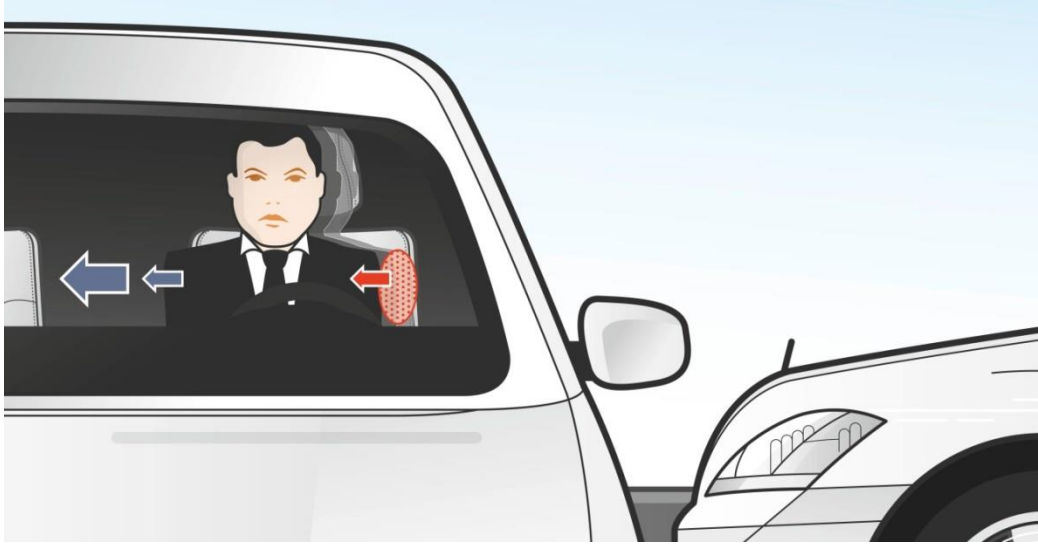

Driver Assistance Package (DA2PKG)

Option price: \$2,250

Latest-generation of our Advanced Driver Assistance System: the enhanced intelligent hands-off detection includes sensing via the Touch Control Buttons and is sensitive to specific conditions and can be activated at a wide range of speeds.

- **Active Stop-and-Go Assist** see next slide
- **Active Distance Assist DISTRONIC®**
- **Active Steering Assist** can now actively intervene even if road lines are unclear or non-existent at certain speeds; it can now also function in curves with a tighter radius
- **Active Emergency Stop Assist** is able to brake the vehicle to a standstill in its lane if it detects that the driver is no longer actively driving the vehicle while it is on the move with Active Distance Assist DISTRONIC and Active Steering Assist engaged. It can now unlock the doors when the vehicle is stationary to allow first aid responders immediate access to the vehicle's interior
- **Active Lane Change Assist** is a radar-and-camera-based system that aids the driver when changing lanes. When a turn is indicated, this feature will aid with steering into the adjacent lane if it detects the lane is empty
- **Active Speed Limit Assist** can adapt vehicle speed to identified speed limits and can now adjust preemptively when speed limits are going to change.
- **Route-Based Speed Adaptation** is able to reduce the speed in anticipatory mode by referencing the vehicle's map data ahead of bends, junctions, roundabouts, toll booths and exit roads
- **Active Brake Assist with Cross-Traffic Function**
- **Evasive Steering Assist** this system assists by adding calculated steering torque to aid in steering wheel movement when a driver deliberately or instinctively performs an evasive maneuver around a pedestrian.
- **Active Blind Spot Assist** helps the driver to avoid an imminent side impact by sinGLS-sided braking.
- **Active Lane Keeping Assist**
- **PRE-SAFE® Impulse Side** see next slide

Driver Assistance Package Highlights

Mercedes-Benz Intelligent Drive – PRE-SAFE® Impulse Side

Included in Driver Assistance Package (DA2PKG)

- PRE-SAFE® Impulse Side initiates preventative protective measures against an impending side impact, supplementing the measures taken by PRE-SAFE® and PRE-SAFE® PLUS
- In the event of a side impact, PRE-SAFE® Impulse Side can have a positive effect by increasing the distance between the occupant and the door, and at the same time reducing the relative speeds between the side structure and the occupant's torso
- In the event of a recognized, unavoidable side collision, the system can give the driver or front passenger a slight push towards the center of the vehicle on the side facing the impact
- This lateral impulse is initiated by very rapid inflation of an air chamber in the seat bolster

Mercedes-Benz Active Stop-and-Go Assist

Included in Driver Assistance Package (DA2PKG)

- Enables the GLS to recognize traffic jams at an early stage, actively supporting the driver in stop-and-go traffic up to approx. 37 mph

Performance & Handling

- 9G-TRONIC 9-Speed Automatic Transmission
- AIRMATIC Suspension
- 19" MB wheels
- All Season Tires
- New 3.0L inline-6 turbo engine with EQ-Boost (362 hp, 369 lb-ft, EQ-Boost outputs 21 hp and up to 184 lb-ft) (GLS 450 4MATIC)
- 4.0L V8 Bi-turbo engine with EQ-Boost (483 hp, 516 lb-ft, EQ-Boost outputs 21 hp and up to 184 lb-ft) (GLS 580 4MATIC)

Comfort & Convenience

- KEYLESS-GO
- Remote Start
- LED Intelligent Light System
- Adaptive Highbeam Assist
- Power tilt/sliding sunroof
- Multifunctional steering wheel with Touch Controllers
- Touchpad in Center Console
- MBUX User Interface
- 12.3" fully digital instrument cluster
- 12.3" Media Display with touchscreen
- Smartphone Integration
- Apple CarPlay and Android Auto
- 9 USBs (3 in front, 2 in 2nd row, 4 in 3rd row)
- HERMES Communications module LTE
- MB Navigation with Live Traffic and Map Updates
- Ambient Lighting with 64 Colors
- Burmester® Surround Sound System
- Heated Front Seats
- Power Front Seats with 4-Way Lumbar Support
- 2-Zone Climate control
- Concierge Service
- Garage Door Opener
- Load Compartment Cover
- Power Liftgate
- Spare tire
- Double Sun Visors
- Privacy Glass
- Mirror Package (Power Folding Mirrors, Auto-dimming Driver and Rearview Mirrors, Mirror Logo Projector)
- Roof rails
- 115V Household Type Power Outlet
- Active Parking Assist with Surround View System
- Wireless Charging
- SiriusXM Radio

Safety & Security

- ATTENTION ASSIST®
- Blind Spot Assist
- Rear View Camera
- PRE-SAFE®
- Active Brake Assist
- eCall-emergency system
- Car Exit Warning
- Anti-Theft Alarm System

Steering Wheel

Nappa Leather Multifunction Steering Wheel (L3B)

Standard on all models

- Newly redesigned 3-spoke multifunction steering wheel in nappa leather
- Touch Control buttons for direct control of the instrument cluster and to control the functions of the multimedia system.
- Bezel and buttons in silver shadow
- Shift panels in black

Wood/Leather Steering Wheel (L3D)

Option Price: \$600

Requires designo high-gloss lime (H34), grey open-pore oak (H31) or brown open-pore walnut (H22)

- The 3-spoke multifunction steering wheel in wood/leather combines fine materials with innovative ease of operation.

AMG Sport Steering Wheel (L5C)

Requires AMG Line Interior (DG2PKG)

Not with Heated Steering Wheel (443)

- Elegant 3-spoke multifunction steering wheel design, flattened bottom section with a particularly compact, and extremely sporty look/feel
- Bezel and buttons in silver shadow
- Shift panels in silver shadow
- Perforated grip area

Heated Steering Wheel (443)

Option Price: \$250

Not with AMG Line Interior (DG2PKG)

- On cold days, the heated 3-spoke steering wheel rim very quickly warms the grip area of the steering wheel to ensure pleasantly warm hands.
- The function is switched on and off by turning the control lever for adjusting the multifunction steering wheel.

Burmester® Surround Sound Systems

Burmester® Surround Sound System (810)

Standard

- 13 high-performance speakers precisely configured for the vehicle interior to ensure well-balanced and very dynamic music reproduction
- 9-channel DSP amplifier with a total output of 590 watts (7 x 50 W and 2 x 120 W) for maximum sound quality with very high volume reserves
- Frontbass® technology with woofers integrated into the body-in-white
- Sound optimization for the front and rear seats
- Vehicle noise compensation (VNC)
- Sound preset: surround function to generate virtual all-round sound
- Support for popular multi-channel formats for true surround sound

Burmester® High-End 3D Surround Sound System (811)

Option Price \$5,400

Not with MBUX Interior Assistant (77B), AMG Line Exterior (DG1)

- 26 high-end speakers including subwoofer and speaker units in the roof liner
- 27-channel amplifier with digital and active analogue filters and an output of 1,210 watts plus an additional subwoofer booster amplifier delivering 400 watts (total system output 1,610 watts)
- VIP seat function to optimize the sound for individual seats
- Mid-range, low- to mid-range and Frontbass speakers with membranes made of glass-fibre fabric
- Noise compensation (VNC) for dynamic equalizing
- Supports multichannel audio formats
